

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

**FORM 10-Q**

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period **ended October 28, 2012**

Commission file number **000-25349**

**HOOKER FURNITURE CORPORATION**

*(Exact name of registrant as specified in its charter)*

**Virginia**

*(State or other jurisdiction of incorporation or organization)*

**54-0251350**

*(IRS employer identification no.)*

**440 East Commonwealth Boulevard, Martinsville, VA 24112**

*(Address of principal executive offices, zip code)*

**(276) 632-0459**

*(Registrant's telephone number, including area code)*

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated Filer

Accelerated filer

Non-accelerated Filer  (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of December 3, 2012:

**Common stock, no par value**

*(Class of common stock)*

**10,746,106**

*(Number of shares)*

**HOOKER FURNITURE CORPORATION AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Dollar and share amounts in tables, except per share amounts, in thousands unless otherwise indicated)  
(Unaudited)  
For the Thirty-Nine Weeks Ended October 28, 2012

**1. Preparation of Interim Financial Statements**

The condensed consolidated financial statements of Hooker Furniture Corporation and subsidiaries (referred to as “we,” “us,” “our,” “Hooker” or the “Company”) have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). In the opinion of management, these statements include all adjustments necessary for a fair statement of the results of all interim periods reported herein. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) are condensed or omitted pursuant to SEC rules and regulations. However, we believe that the disclosures made are adequate for a fair presentation of our results of operations and financial position. Operating results for the interim periods reported herein may not be indicative of the results expected for the fiscal year. These financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our annual report on Form 10-K for the fiscal year ended January 29, 2012.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect both the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from our estimates.

The financial statements contained herein are being filed as part of a quarterly report on Form 10-Q covering the thirteen-week period (also referred to as “three months,” “three-month period,” “quarter,” “third quarter” or “quarterly period”) that began July 30, 2012 and the thirty-nine week period (also referred to as “nine months,” or “nine-month period”) that began January 30, 2012, and which both ended October 28, 2012. These financial statements also include the thirteen-week period that began August 1, 2011 and the thirty-nine week period that began January 31, 2011, which both ended October 30, 2011 and our financial condition as of October 28, 2012 compared to January 29, 2012.

References in these notes to the condensed consolidated financial statements of the Company to:

- § the 2013 fiscal year and comparable terminology mean the fiscal year that began January 30, 2012 and will end February 3, 2013; and
- § the 2012 fiscal year and comparable terminology mean the fiscal year that began January 31, 2011 and ended January 29, 2012.

Certain amounts have been reclassified in the prior period financial statements to reflect the current period classification.

**2. Inventories**

	<b>October 28, 2012</b>	January 29, 2012
Finished furniture	<b>\$ 49,106</b>	\$ 42,656
Furniture in process	<b>688</b>	580
Materials and supplies	<b>8,584</b>	7,942
Inventories at FIFO	<b>58,378</b>	51,178
Reduction to LIFO basis	<b>(19,524)</b>	(17,042)
Inventories	<b>\$ 38,854</b>	\$ 34,136

### 3. Property, Plant and Equipment

	October 28, 2012	January 29, 2012
Computer software and hardware	\$ 27,892	\$ 26,347
Buildings and land improvements	23,680	24,501
Machinery and equipment	3,650	3,708
Leasehold improvements	2,675	777
Furniture and fixtures	1,974	1,653
Other	702	763
Total depreciable property at cost	<u>60,573</u>	<u>57,749</u>
Less accumulated depreciation	<u>40,091</u>	<u>41,117</u>
Total depreciable property, net	<u>20,482</u>	<u>16,632</u>
Land	1,152	1,357
Construction in progress	1,279	3,680
Property, plant and equipment, net	<u>\$ 22,913</u>	<u>\$ 21,669</u>

Leasehold improvements increased \$1.9 million to \$2.7 million at October 28, 2012, primarily due to the capitalization of improvements to our new High Point, NC showroom during the fiscal 2013 first quarter.

The buildings and land improvements, machinery and equipment and land fixed asset categories decreased at October 28, 2012, primarily due to the sale of our former Cherryville, NC upholstery manufacturing facility during the fiscal 2013 second quarter.

The \$1.3 million in construction-in-process at October 28, 2012 is made up primarily of expenses to support our continued ERP conversion efforts and technological upgrades in our import and upholstery operations.

### 4. Intangible Assets

	October 28, 2012	January 29, 2012
<b>Non-amortizable Intangible Assets</b>		
Trademarks and trade names - Bradington-Young	\$ 861	\$ 861
Trademarks and trade names - Sam Moore	396	396
Total trademarks and tradenames	<u>\$ 1,257</u>	<u>\$ 1,257</u>

### 5. Accounts Receivable

	October 28, 2012	January 29, 2012
Trade accounts receivable	\$ 23,748	\$ 21,261
Receivable from factor	7,190	6,178
Allowance for doubtful accounts	(1,482)	(1,632)
Accounts receivable	<u>\$ 29,456</u>	<u>\$ 25,807</u>

“Receivable from factor” represents amounts due with respect to factored accounts receivable. We factor substantially all of the accounts receivable for our domestically produced upholstery without recourse to us.

Under our factoring agreement, invoices for domestically produced upholstery products are generated and transmitted to our customers, with copies to the factor on a daily basis, as products are shipped to our customers. The factor collects the amounts due and remits collected funds, less factoring fees, to us semi-weekly. We retain ownership of the accounts receivable until the invoices are 90 days past due. At that time, the factor pays us the net invoice amount, less factoring fees, and takes ownership of the accounts receivable. The factor is then entitled to collect the invoices on its own behalf and retain any subsequent remittances. The invoiced amounts are reported as accounts receivable on our condensed consolidated balance sheets, generally when the merchandise is shipped to our customer until payment is received from the factor.

A limited number of our accounts receivable for our domestically produced upholstery are factored with recourse to us. The amounts of these receivables at October 28, 2012 and January 29, 2012 were \$118,000 and \$135,000, respectively. If the factor is unable to collect the amounts due, invoices are returned to us for collection. We include an estimate of potentially uncollectible receivables in our calculation of our allowance for doubtful accounts.

## 6. Earnings Per Share

Since 2006, we have issued restricted stock awards to non-employee members of the board of directors under our stock incentive plan and expect to continue to make these awards annually. These awards vest if the director continuously serves on the board through a three-year service period and may vest earlier upon certain events specified in the plan. In both fiscal 2012 and the fiscal 2013 first quarter, we awarded time-based restricted stock units (RSUs) to certain executive employees. Each RSU entitles the executive to receive one share of the Company's common stock if he remains continuously employed with the Company through the end of a three-year service period. The RSUs may be paid in shares of the Company's common stock, cash, or both, at the discretion of our compensation committee. Unlike the restricted stock awards made to our non-employee directors, the shares of our common stock that may be issued under these RSUs will not be issued until the vesting period has elapsed. The RSU grantee is not entitled to receive dividends on or vote these shares during the vesting period. Both our unvested restricted stock awards and shares issuable under unvested RSUs are considered when computing diluted earnings per share. As of October 28, 2012 and January 29, 2012 there were 31,894 and 32,005 dilutive shares, respectively, outstanding, or deemed outstanding, under restricted stock and RSU awards, net of forfeitures and vested shares on each date. During the fiscal 2013 third quarter and the fiscal 2013 first nine months, we purchased and retired 35,300 and 57,700 shares, respectively, of our common stock under a \$12.5 million share repurchase authorization approved by our board of directors during the fiscal 2013 first quarter. These repurchases reduced our total outstanding shares for each respective period and, consequently, reduced the weighted outstanding shares used in our calculation of earnings per share for the fiscal 2013 quarterly and year-to-date periods shown below.

The following table sets forth the computation of basic and diluted earnings per share:

	<b>Thirteen Weeks Ended</b>		<b>Thirty-nine Weeks Ended</b>	
	<b>October 28, 2012</b>	<b>October 30, 2011</b>	<b>October 28, 2012</b>	<b>October 30, 2011</b>
Net income	\$ 2,434	\$ 2,260	\$ 4,928	\$ 4,429
Less: Unvested participating restricted stock dividends	3	3	3	3
Net earnings allocated to unvested participating restricted stock	-	-	-	-
Earnings available for common shareholders	<u>2,431</u>	<u>2,257</u>	<u>4,925</u>	<u>4,426</u>
Weighted average shares outstanding for basic earnings per share	10,723	10,762	10,755	10,762
Dilutive effect of unvested restricted stock and RSU awards	<u>19</u>	<u>21</u>	<u>32</u>	<u>26</u>
Weighted average shares outstanding for diluted earnings per share	10,742	10,783	10,787	10,788
Basic earnings per share	<u>\$ 0.23</u>	<u>\$ 0.21</u>	<u>\$ 0.46</u>	<u>\$ 0.41</u>
Diluted earnings per share	<u>\$ 0.23</u>	<u>\$ 0.21</u>	<u>\$ 0.46</u>	<u>\$ 0.41</u>

7. **Long Term Debt**

As of October 28, 2012, we had an aggregate \$13.2 million available under our \$15.0 million revolving credit facility to fund working capital needs. Standby letters of credit in the aggregate amount of \$1.8 million, used to collateralize certain insurance arrangements and for imported product purchases, were outstanding under our revolving credit facility as of October 28, 2012. There were no additional borrowings outstanding under the revolving credit facility on October 28, 2012. Any principal outstanding under the revolving credit facility is due July 31, 2013.

8. **Employee Benefit Plans**

We maintain a supplemental retirement income plan (“SRIP”) for certain former and current executives. The liability for the SRIP at October 28, 2012 was \$7.7 million and was \$7.6 million at January 29, 2012 and is shown in our condensed consolidated balance sheets as follows:

	<b>October 28, 2012</b>	January 29, 2012
Accrued salaries, wages and benefits (current portion)	\$ 469	\$ 469
Deferred compensation (long-term portion)	7,261	7,100
<b>Total liability</b>	<b>\$ 7,730</b>	<b>\$ 7,569</b>

Components of net periodic benefit cost for the SRIP are included in our condensed consolidated statements of operations under selling and administrative expenses:

	<b>Thirteen Weeks Ended</b>		<b>Thirty-Nine Weeks Ended</b>	
	<b>October 28, 2012</b>	October 30, 2011	<b>October 28, 2012</b>	October 30, 2011
<b>Net periodic benefit cost</b>				
Service cost	\$ 64	\$ 131	\$ 191	\$ 393
Interest cost	74	84	223	252
Actuarial gain	(15)	(81)	(44)	(243)
<b>Net periodic benefit cost</b>	<b>\$ 123</b>	<b>\$ 134</b>	<b>\$ 370</b>	<b>\$ 402</b>

9. **Income Taxes**

We recorded income tax expense of \$1.4 million for the fiscal 2013 third quarter compared to \$563,000 for the prior year third quarter. The effective tax rates for the fiscal 2013 and fiscal 2012 third quarters were 36.2% and 20.0%, respectively. The fiscal 2013 effective tax rate is in the range of what we would expect from normal operations. The 20% effective tax rate from the fiscal 2012 third quarter was exceptionally low, primarily due to the tax benefits of the following items, which occurred in the fiscal 2012 third quarter:

- § the receipt of the non-taxable proceeds from Company-owned life insurance;
- § a higher level of donations of discontinued inventory items than in the fiscal 2013 third quarter;
- § the receipt of a non-taxable distribution from our former captive insurance arrangement that did not recur in the fiscal 2013 third quarter; and
- § a refund of a previously paid IRS penalty.

We recorded income tax expense of \$2.8 million in the first nine months of fiscal 2013 compared to \$1.7 million in the comparable prior-year period. The effective income tax rates for the first nine months of fiscal 2013 and fiscal 2012 were 36.2% and 27.9%, respectively. The higher effective income tax rate for the fiscal 2013 period was primarily due to:

- § a lower permanent benefit from officers’ life insurance policies;
- § a change in our federal deferred tax rate from 35.0% to 34.0%, based on forecasted net income for the periods in which the deferred taxes will be payable;
- § lower deductions for contributions of discontinued inventory; and
- § the receipt of a non-taxable distribution from our former captive insurance arrangement in the first nine months of fiscal 2012 that did not recur in the first nine months of fiscal 2013.

## 10. Segment Information

The following table presents segment information for the following thirteen and thirty-nine week periods:

	Thirteen Weeks Ended				Thirty-Nine Weeks Ended			
	October 28, 2012	% Net Sales	October 30, 2011	% Net Sales	October 28, 2012	% Net Sales	October 30, 2011	% Net Sales

## 11. Subsequent Events

### Dividends

At its December 4, 2012 meeting, our board of directors declared a quarterly cash dividend of \$0.10 per share, payable on December 28, 2012 to shareholders of record at December 17, 2012.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This quarterly report on Form 10-Q includes our unaudited condensed consolidated financial statements for the thirteen-week period (also referred to as “three months,” “three-month period,” “quarter,” “third quarter” or “quarterly period”) that began July 30, 2012 and the thirty-nine week period (also referred to as “nine months,” “nine-month period”) that began January 30, 2012, and which both ended October 28, 2012. This report discusses our results of operations for these periods compared to the fiscal year 2012 thirteen-week period that began August 1, 2011 and the thirty-nine week period that began January 31, 2011, which both ended October 30, 2011, and our financial condition as of October 28, 2012 compared to January 29, 2012.

For financial reporting purposes, we are organized into two operating segments – casegoods furniture and upholstered furniture. References in this report to the Company refer to the Company and our consolidated subsidiaries, unless specifically referring to segment information.

References in this report to:

- § the 2013 fiscal year and comparable terminology mean the fiscal year that began January 30, 2012 and will end February 3, 2013; and
- § the 2012 fiscal year and comparable terminology mean the fiscal year that began January 31, 2011 and ended January 29, 2012.

Dollar amounts presented in the tables below are in thousands.

### Nature of Operations

Incorporated in Virginia in 1924, Hooker Furniture Corporation (the “Company,” “we,” “us,” and “our”) is a home furnishings marketing and logistics company offering imported residential casegoods and upholstery, as well as domestically produced custom leather and fabric upholstery. We are ranked among the nation’s top 10 largest publicly traded furniture sources, based on 2011 shipments to U.S. retailers, according to a survey released in May 2012 by Furniture/Today, a leading trade publication. We are a key resource for residential wood and metal furniture, commonly referred to as casegoods, and upholstered furniture. Our major casegoods product categories include home entertainment, home office, accent, dining and bedroom furniture under the Hooker Furniture brand, and youth furniture sold under the Opus Designs by Hooker brand. Our residential upholstered seating companies include Bradington-Young, a specialist in upscale motion and stationary leather furniture, and Sam Moore Furniture, a specialist in upscale occasional chairs, settees, sofas and sectional seating with an emphasis on fabric cover-to-frame customization. An extensive selection of designs and formats along with finish and cover options in each of these product categories makes us a comprehensive residential furniture resource for retailers, primarily targeting the upper-medium price range. Our principal customers are retailers of residential home furnishings who are broadly dispersed throughout the United States and Canada, as well as an important, growing international customer base. Customers include independent furniture stores, specialty retailers, department stores, catalog and internet merchants, interior designers and national and regional chains.

### Overview

Consumer home furnishings purchases are driven by an array of factors, including general economic conditions such as:

- § consumer confidence;
- § fashion trends;
- § availability of consumer credit;
- § energy and other commodity prices; and
- § housing and mortgage markets;

as well as lifestyle-driven factors such as changes in:

- § disposable income;
- § housing; and
- § family size.

Our industry has been impacted by low levels of consumer confidence and a weak housing market since the fall of 2006. By late 2008, this malaise, exacerbated by weak credit markets, had spread to the broader U.S. economy. As a result, the residential home furnishings industry experienced a significant and persistent decline in demand for its products from 2008-2010. Discretionary purchases of furniture have been highly affected by low consumer confidence. Current economic factors, such as high unemployment and difficult housing and mortgage markets and changing consumer priorities have resulted in a relatively weak retail environment for home furnishings and related purchases. The extended weakness in housing and housing related industries is beginning to show signs of recovery; however, any recovery in home furnishings is expected to be slow and cautious due to the relatively high cost and postponable nature of many home furnishing product purchases.

Our domestic upholstery operations, which have significantly higher overhead and fixed costs than our import operations, have been particularly affected by the decline in demand for home furnishings and, except for the first quarter and third quarter of the current fiscal year, have experienced operating losses since our fiscal 2009 second quarter. Extensive cost reduction efforts over that time have mitigated the losses and have resulted in our upholstery segment returning to operating profitability for the first nine-months of fiscal 2013. Our lower overhead, variable-cost import operations have driven our profitability over the last few years and provide us with the flexibility to respond to changing demand by adjusting inventory purchases from suppliers. Our import model also requires that we transition sourcing among suppliers, often located in different countries or regions, when quality concerns or inflationary pressures diminish the value proposition offered by our current suppliers.

The following are the primary factors that affected our consolidated results of operations for the three and nine-month periods ended October 28, 2012 compared to the same prior-year periods:

- § Out-of-stock positions on several key imported items, groups and collections negatively impacted sales and profitability, but to a lesser extent during the fiscal 2013 third quarter;
- § The sourcing transition from some of our vendors in China to vendors in other Asian countries resulted in longer lead times, and shipping delays negatively impacted sales and profitability, but to a lesser extent during the fiscal 2013 third quarter;
- § Decreased product discounting negatively impacted sales and unit volume in both the casegoods and upholstery segments, but drove gross margin improvement. Product discounting was higher in the comparable prior-year periods in order to reduce excess and slow-moving inventory;
- § Selling and administrative expenses decreased in absolute terms in both the fiscal 2013 third quarter and first nine months due to a variety of factors, including lower net sales in the nine-month period. As a percentage of net sales, selling and administrative expenses decreased in the fiscal 2013 third quarter primarily due to higher net sales, while remaining essentially flat for the 2013 nine-month period; and
- § Our upholstery segment first returned to operating profitability in the fiscal 2013 first quarter after reporting operating losses since the fiscal 2009 second quarter. After reporting a small loss in the fiscal 2013 second quarter, the upholstery segment reported operating profits of \$567,000 and \$669,000, respectively, for the three and nine-month periods just ended.

## Results of Operations

The following table sets forth the percentage relationship to net sales of certain items included in the condensed consolidated statements of operations included in this report.

	Thirteen Weeks Ended		Thirty-nine Weeks Ended	
	October 28, 2012	October 30, 2011	October 28, 2012	October 30, 2011
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	76.1	76.5	77.5	78.6
Gross profit	23.9	23.5	22.5	21.4
Selling and administrative expenses	17.2	18.5	17.7	17.8
Operating income	6.7	5.0	4.8	3.5
Other income, net	0.1	0.2	0.1	0.1
Income before income taxes	6.7	5.2	4.9	3.7
Income tax expense	2.4	1.0	1.8	1.0
Net income	4.3	4.2	3.1	2.6

## Fiscal 2013 Third Quarter Compared to Fiscal 2012 Third Quarter

### Net Sales

	Thirteen Weeks Ended					
	October 28, 2012	% Net Sales	October 30, 2011	% Net Sales	\$ Change	% Change
Casegoods	\$ 36,508	64.3%	\$ 35,476	65.5%	\$ 1,032	2.9%
Upholstery	20,295	35.7%	18,704	34.5%	1,591	8.5%
Consolidated	\$ 56,803	100.0%	\$ 54,180	100.0%	\$ 2,623	4.8%

Unit Volume	FY13 Q3 % Increase vs. FY12 Q3		Average Selling Price	FY13 Q3 % Increase vs. FY12 Q3	
Casegoods	-10.2%		Casegoods		13.9%
Upholstery	1.2%		Upholstery		6.7%
Consolidated	-7.1%		Consolidated		12.3%

The increase in consolidated net sales for the fiscal 2013 third quarter, as compared to the fiscal 2012 third quarter, was principally due to higher average selling prices, particularly in both segments, partially offset by lower unit volume in our casegoods segment. The casegoods sales increase was primarily driven by product mix and decreased discounting, partially offset by lower unit volume. Upholstery net sales increased as compared to the same prior-year period due to increased average selling prices and sales volume.

**Gross Profit**

	<b>Thirteen Weeks Ended</b>					
	<u>October 28, 2012</u>		<u>October 30, 2011</u>		<u>\$ Change</u>	<u>% Change</u>
		% Net Sales		% Net Sales		
Casegoods	\$ 9,580	26.2%	\$ 10,011	28.2%	\$ (431)	-4.3%
Upholstery	3,980	19.6%	2,726	14.6%	1,254	46.0%
Consolidated	<b>\$ 13,560</b>	<b>23.9%</b>	<b>\$ 12,737</b>	<b>23.5%</b>	<b>\$ 823</b>	<b>6.5%</b>

Consolidated gross margin increased for the fiscal 2013 third quarter, as compared to the fiscal 2012 third quarter, primarily due to decreased discounting in the casegoods segment and reduced manufacturing costs in our upholstery segment, partially offset by higher costs on some of our imported products. The higher levels of casegoods segment discounting in the fiscal 2012 third quarter were primarily due to efforts to reduce excess and slow-moving inventory levels. Manufacturing costs in our domestic upholstery operations increased modestly in absolute terms due to higher sales, but decreased as a percentage of net sales due to the favorable impact of higher sales on the fixed costs and extensive cost reduction initiatives undertaken over the past several years.

**Selling and Administrative Expenses**

	<b>Thirteen Weeks Ended</b>					
	<u>October 28, 2012</u>		<u>October 30, 2011</u>		<u>\$ Change</u>	<u>% Change</u>
		% Net Sales		% Net Sales		
Casegoods	\$ 6,369	17.4%	\$ 6,551	18.5%	\$ (182)	-2.8%
Upholstery	3,412	16.8%	3,480	18.6%	(68)	-2.0%
Consolidated	<b>\$ 9,781</b>	<b>17.2%</b>	<b>\$ 10,031</b>	<b>18.5%</b>	<b>\$ (250)</b>	<b>-2.5%</b>

Casegoods selling and administrative expenses decreased both as a percentage of net sales and in absolute terms in the fiscal 2013 third quarter compared to the same prior-year period. These decreases were primarily due to the casegoods net sales increase discussed above and cost improvements due to:

- § lower contribution expense due to lower levels of distressed inventory;
- § increased amounts billed to our imported upholstery division compared to the prior periods for its share of administrative costs; and
- § decreased bad debt expense due to favorable collections experience.

These improvements were partially offset by increases in

- § bonus expense, due to the accrual of annual profit sharing bonuses and the payment of project-related performance bonuses for our Enterprise Resource Planning (ERP) implementation;
- § salary expense primarily due to the promotion of an upholstery executive to a casegoods position during the fiscal 2012 third quarter and also due to other salary increases; and
- § advertising expense due to additional advertising and marketing initiatives aimed at increasing sales.

Upholstery selling and administrative expenses decreased both as a percentage of net sales and in absolute terms in the fiscal 2013 third quarter compared to the same prior-year period, primarily due to decreases in:

- § salary expense due to the previously mentioned executive promotion of an officer from our upholstery segment to a casegoods management position and due to cost reduction efforts undertaken in fiscal 2012;
- § depreciation expense due to accelerated depreciation expense recorded in fiscal 2012 in conjunction with our move to a new showroom; and
- § benefits expense due to decreased headcount and lower health claims.

These decreases were partially offset by increases in:

- § the upholstery segment's share of Company-wide administrative costs; and
- § advertising expense due to increased swatch and catalog expense.

## Operating Income

	<b>Thirteen Weeks Ended</b>					
	<u>October 28, 2012</u>	<u>% Net Sales</u>	<u>October 30, 2011</u>	<u>% Net Sales</u>	<u>\$ Change</u>	<u>% Change</u>
Casegoods	\$ 3,212	8.8%	\$ 3,460	9.8%	\$ (248)	-7.2%
Upholstery	567	2.8%	(754)	-4.0%	1,321	175.2%
Consolidated	\$ 3,779	6.7%	\$ 2,706	5.0%	\$ 1,073	39.7%

Operating profitability increased for the fiscal 2013 third quarter as compared to the same prior-year period as a percentage of net sales and in absolute terms, due to the factors discussed above.

## Income Taxes

	<b>Thirteen Weeks Ended</b>					
	<u>October 28, 2012</u>	<u>% Net Sales</u>	<u>October 30, 2011</u>	<u>% Net Sales</u>	<u>\$ Change</u>	<u>% Change</u>
Consolidated income tax expense	\$ 1,379	2.4%	\$ 563	1.0%	\$ 816	144.9%
Effective Tax Rate		36.2%		20.0%		

We recorded income tax expense of \$1.4 million for the fiscal 2013 third quarter compared to \$563,000 for the prior year third quarter. The effective tax rates for the fiscal 2013 and fiscal 2012 third quarters were 36.2% and 20.0%, respectively. The fiscal 2013 effective tax rate is in the range of what we would expect from normal operations. The 20% effective tax rate from the fiscal 2012 third quarter was exceptionally low, primarily due to the tax benefits of the following items, which occurred in the fiscal 2012 third quarter:

- § the receipt of the non-taxable proceeds from Company-owned life insurance;
- § a higher level of donations of discontinued inventory items than in the fiscal 2013 third quarter;
- § the receipt of a non-taxable distribution from our former captive insurance arrangement that did not recur in the fiscal 2013 third quarter; and
- § a refund of a previously paid IRS penalty.

## Net Income and Earnings Per Share

	<b>Thirteen Weeks ended</b>					
	<u>October 28, 2012</u>	<u>% Net Sales</u>	<u>October 30, 2011</u>	<u>% Net Sales</u>	<u>\$ Change</u>	<u>% Change</u>
<b>Net Income</b>						
Consolidated	\$ 2,434	4.3%	\$ 2,259	4.2%	\$ 175	7.7%
Earnings per share	\$ 0.23		\$ 0.21			

**Fiscal 2013 First Nine Months Compared to Fiscal 2012 First Nine Months**
**Net Sales**

	Thirty-Nine Weeks Ended					
	October 28, 2012		October 30, 2011		\$ Change	% Change
		% Net Sales		% Net Sales		
Casegoods	\$ 101,447	63.9%	\$ 111,704	66.4%	\$ (10,257)	-9.2%
Upholstery	57,271	36.1%	56,443	33.6%	828	1.5%
Consolidated	\$ 158,718	100.0%	\$ 168,147	100.0%	\$ (9,429)	-5.6%

Unit Volume	FY13 YTD % Increase vs. FY12 YTD	Average Selling Price	FY13 YTD % Increase vs. FY12 YTD
Casegoods	-22.2%	Casegoods	15.9%
Upholstery	-6.6%	Upholstery	8.2%
Consolidated	-18.2%	Consolidated	14.6%

The decrease in consolidated net sales for the fiscal 2013 first nine months, as compared to the fiscal 2012 first nine months, was principally due to lower unit volume, particularly in our casegoods segment, partially offset by higher average selling prices in both segments. The casegoods sales decrease was driven by out-of-stock positions on several key items, groups and collections in the first half of the fiscal 2013 fiscal year and decreased discounting. The out-of-stock positions were primarily due to overly-aggressive inventory reductions that began in fiscal 2012 and continued into the fiscal 2013 first six months. To a lesser extent and consistent with our fiscal 2012 fourth quarter, vendor shifts from China to other Asian countries resulted in the delay of several well-placed new casegoods collections and negatively impacted fiscal 2013 first six month sales. These vendor shifts contributed to the out-of-stock positions and increased the demand for our best-selling, in-stock products. This accelerated demand cycle hastened the out-of-stock position on best sellers. Sales of imported products in fiscal 2012 were driven by heavy discounting, intended to reduce inventory of slow selling and discontinued products. Upholstery net sales increased compared to the same prior-year period, primarily due to increased average selling prices, partially offset by lower unit volume.

**Gross Profit**

	Thirty-Nine Weeks Ended					
	October 28, 2012		October 30, 2011		\$ Change	% Change
		% Net Sales		% Net Sales		
Casegoods	\$ 25,154	24.8%	\$ 27,643	24.8%	\$ (2,489)	-9.0%
Upholstery	10,593	18.5%	8,290	14.7%	2,303	27.8%
Consolidated	\$ 35,747	22.5%	\$ 35,933	21.4%	\$ (186)	-0.5%

Consolidated gross margin increased for the fiscal 2013 first nine months, as compared to the same prior-year period, primarily due to decreased discounting in both segments and lower domestic upholstery manufacturing costs as a percentage of net sales, partially offset by higher costs on some of our imported products. The higher levels of product discounting in the fiscal 2012 first nine months were primarily due to efforts to reduce slow-moving inventory levels. In absolute terms, consolidated fiscal 2013 first nine months gross profit decreased compared to the same prior-year period, primarily due to the decline in net sales discussed above, which slightly offset margin improvements.

## Selling and Administrative Expenses

	Thirty-Nine Weeks Ended					
	October 28, 2012		October 30, 2011		\$ Change	% Change
		% Net Sales		% Net Sales		
Casegoods	\$ 18,194	17.9%	\$ 19,628	17.6%	\$ (1,434)	-7.3%
Upholstery	9,924	17.3%	10,358	18.4%	(434)	-4.2%
Consolidated	\$ 28,118	17.7%	\$ 29,986	17.8%	\$ (1,868)	-6.2%

Casegoods selling and administrative expenses increased as a percentage of net sales primarily due to the net sales decrease discussed above, but decreased in absolute terms, primarily due to:

- § increased amounts billed to our imported upholstery division compared to prior periods for its share of administrative costs;
- § lower contribution expense due to lower levels of distressed inventory;
- § lower sales and design commissions due to lower net sales; and
- § reduced advertising and sample expenses due to cost cutting measures.

These expense improvements were partially offset by increases in:

- § salary expense primarily due to the executive promotion mentioned previously and other salary increases;
- § benefits expense, due primarily to an insurance gain on Company-owned life insurance in the prior-year period, due to the death of a former executive, which reduced benefits expense for that period;
- § bonus expense, due to the reversal of an accrual for officers' long-term performance grant awards in the comparable prior-year period; and
- § professional services, due to additional fees for several corporate initiatives.

Upholstery selling and administrative expenses decreased both as a percentage of net sales and in absolute terms in the fiscal 2013 first nine months compared to the same prior-year period, primarily due to decreases in:

- § salary expense, due to the executive promotion mentioned above and cost reduction efforts undertaken in fiscal 2012;
- § benefits expense due to decreased headcount and lower health claims; and
- § sample and advertising expenses, due to cost-cutting measures.

These decreases were partially offset by an increase in the upholstery segment's share of Company-wide administrative costs.

## Operating Income

	Thirty-Nine Weeks Ended					
	October 28, 2012		October 30, 2011		\$ Change	% Change
		% Net Sales		% Net Sales		
Casegoods	\$ 6,960	6.9%	\$ 8,015	7.2%	\$ (1,055)	-13.2%
Upholstery	669	1.2%	(2,068)	-3.7%	2,737	132.3%
Consolidated	\$ 7,629	4.8%	\$ 5,947	3.5%	\$ 1,682	28.3%

Operating profitability increased for the fiscal 2013 first nine months as compared to the same prior-year period, both as a percentage of net sales and in absolute terms, due to the factors discussed above. Our upholstery segment returned to operating profitability during the 2013 fiscal first quarter and, despite a modest operating loss in the fiscal 2013 second quarter, remained profitable for the first three quarters of fiscal 2013. The upholstery segment has returned to operating profitability due to operational improvements.

## Income Taxes

	Thirty-Nine Weeks ended								
	October 28, 2012		October 30, 2011		\$ Change	% Change			
		% Net Sales		% Net Sales					
Consolidated income tax expense	\$	2,799	1.8%	\$	1,716	1.0%	\$	1,083	63.1%
Effective Tax Rate		36.2%		27.9%					

We recorded income tax expense of \$2.8 million in the first nine months of fiscal 2013 compared to \$1.7 million in the comparable prior-year period. The effective income tax rates for the first nine months of fiscal 2013 and fiscal 2012 were 36.2% and 27.9%, respectively. The higher effective income tax rate for the fiscal 2013 period was primarily due to:

- § a lower permanent benefit from officers' life insurance policies;
- § a change in our federal deferred tax rate from 35.0% to 34.0%, based on forecasted net income for the periods in which the deferred taxes will be payable;
- § lower deductions for contributions of discontinued inventory; and
- § the receipt of a non-taxable distribution from our former captive insurance arrangement in the first nine months of fiscal 2012 that did not recur in the first nine months of fiscal 2013.

## Net Income and Earnings Per Share

	Thirty-Nine Weeks ended								
	October 28, 2012		October 30, 2011		\$ Change	% Change			
		% Net Sales		% Net Sales					
<b>Net Income</b>									
Consolidated	\$	4,928	3.1%	\$	4,429	2.6%	\$	499	11.3%
Earnings per share	\$	0.46		\$	0.41				

The improvement in net income and earnings per share in the fiscal year 2013 first three quarters, reflects the upholstery segment returning to operating profitability, which was primarily due to operational improvements partially offset by lower casegoods profitability due to lower sales volume.

## Outlook

Our current sourcing transition from some vendors in China to other Asian locales neared completion during the fiscal 2013 third quarter. Transition-related out-of-stock positions, which negatively impacted sales during the first half of fiscal 2013, began to improve during the fiscal 2013 third quarter. Improvements in vendor performance and product quality continued to be realized during the fiscal 2013 third quarter. In addition, significant improvement in in-stock inventory and a somewhat improved incoming order rate resulted in improved case goods shipments in the fiscal 2013 third quarter compared to the first two quarters of fiscal 2013.

We are generally pleased with our upholstery segment's year-to-date fiscal 2013 performance, however manufacturing costs remain somewhat elevated at Sam Moore due to the startup of sofa production and the ramp up in production to meet the higher incoming order levels compared to the same period last year. We intend to build on these positives by continuing to focus on labor efficiency, cost reduction projects, and volume increases driven by new and updated products and improved volume at key retailers.

Our upholstery segment continues to have higher fixed costs than our casegoods segment, which is due to the upholstery segment's domestic manufacturing operations. In addition, one-time start-up costs for Sam Moore's successful fully upholstered sofa line have added costs during the 2013 fiscal year. To mitigate the impact of sales declines in recent years, we have continued to streamline our upholstery operations by improving efficiency, reducing overhead and evaluating our operating costs and capacity to better match costs to current sales volume levels. Further significant cost reductions in our upholstery segment will be challenging. While we are encouraged by recent increases in sales and incoming orders, if we are unable to continue to increase and maintain sales in our upholstery segment, particularly sales of domestically produced upholstery, additional capacity reductions may be necessary. If undertaken, these capacity reductions which would likely result in restructuring charges, would lower our consolidated net earnings in the short-term (for the quarterly and annual periods in which we recognize the charges) and adversely affect our consolidated balance sheets for the periods then ended. Further capacity reductions also would increase the ratio of fixed to variable costs in our upholstery segment which would create pricing and cost absorption challenges.

Many economic indicators suggest that the United States is in an economic recovery. Evidence of this recovery includes continued increases in household wealth, consumer confidence, disposable income, retail sales and furniture store sales, as well as continued improvement in housing activity, which we believe to be a leading indicator for furniture sales. However, many consumers seem to be hesitant to commit to major purchases due to persistent high unemployment levels and concerns about the domestic economy, including the so called "fiscal cliff", high U.S. debt levels and persistent U.S. federal and state budget deficits. Based on these positive and negative factors, as well as what we see in the home furnishings marketplace, we expect retail furniture demand to improve, but modestly, as we progress through the remainder of our fiscal year.

In light of current conditions, we continue to focus on:

- § pursuing additional distribution channels;
- § controlling costs;
- § adjusting our product pricing on our main-line products in order to improve margins;
- § achieving proper inventory levels, while optimizing product availability on best-selling items;
- § sourcing product from more competitive locales and from more quality conscious sourcing partners;
- § offering an array of new products and designs, which we believe will help generate additional sales; and
- § upgrading and refining our information systems capabilities to support our business.

Our new Enterprise Resource Planning (ERP) system became operational for our casegoods and imported upholstery units early in the third quarter of fiscal 2013, after nearly two years of design, planning, conversion and training efforts by our associates and consultants. We do not believe this system implementation negatively impacted our third quarter results nor do we expect it to impact our fiscal 2013 fourth quarter results of operations. We expect conversion efforts will begin for our domestic upholstery units late in the fiscal 2013 fourth quarter, with full implementation scheduled for late in the fiscal 2014 fourth quarter. Once all our business units are operational on the ERP platform, we expect to realize operational efficiencies and cost savings by presenting a single face to our customers and leveraging best practices across the organization. We refer you to Item "1A. Risk Factors" included in our annual report on Form 10-K for the fiscal year ended January 29, 2012 for a more complete discussion of the risks involved in our ERP system conversion and implementation.

Sales of imported finished goods comprised approximately 73.0% of our sales through the first nine months of fiscal 2013. We receive most of our imported finished goods through the East Coast port of Norfolk, VA. On August 22, 2012, contract negotiations for a new collective bargaining agreement between the United States Maritime Alliance, which represents the shipping industry, and the International Longshoremen's Association (ILA), whose members work in deep sea ports around the East and Gulf Coasts of the United States, were suspended. The current collective bargaining agreement expired on September 30, 2012, yet both parties agreed to extend negotiations for 90-days through December 29, 2012. If a new collective bargaining agreement is not reached before that date, a strike by the ILA could disrupt the flow of inventory to us and our customers. A prolonged strike would likely have an adverse effect on our results of operations and financial position.

**Financial Condition, Liquidity and Capital Resources****Balance Sheet and Working Capital**

The following chart shows changes in our total assets, current assets, current liabilities, net working capital and working capital ratio during the first nine months of fiscal 2013:

	<b>Balance Sheet and Working Capital</b>		
	<b>October 28, 2012</b>	January 29, 2012	\$ Change
Total Assets	\$ 152,464	\$ 149,171	\$ 3,293
Cash	\$ 33,052	\$ 40,355	\$ (7,303)
Trade Receivables	29,456	25,807	3,649
Inventories	38,854	34,136	4,718
Prepaid Expenses & Other	4,593	4,194	399
<b>Total Current Assets</b>	<b>\$ 105,955</b>	<b>\$ 104,492</b>	<b>\$ 1,463</b>
Trade accounts payable	\$ 9,404	\$ 9,233	\$ 171
Accrued salaries, wages and benefits	3,585	3,855	(270)
Other accrued expenses	3,803	1,870	1,933
<b>Total current liabilities</b>	<b>\$ 16,792</b>	<b>\$ 14,958</b>	<b>\$ 1,834</b>
<b>Net working capital</b>	<b>\$ 89,163</b>	<b>\$ 89,534</b>	<b>\$ (371)</b>
Working capital ratio	<b>6.3 to 1</b>	7.0 to 1	

Total assets at October 28, 2012 increased as compared to January 29, 2012, primarily due to increases in:

- § inventory, due to re-stocking efforts;
- § trade accounts receivable due to increased sales; and
- § property, plant and equipment, due to the remodeling of our showroom which debuted at the spring 2012 International Home Furnishings Market and continued investment in our ERP system.

These increases were partially offset by decreased cash and cash equivalents due to increased inventory and accounts receivable resulting from increased sales.

Factors that contributed to the decline in our net working capital (current assets less current liabilities) include the decreased cash and cash equivalents mentioned above and increases in other accrued expenses, due to income tax accruals during the fiscal 2013 first nine months.

Cash Flows – Operating, Investing and Financing Activities

	2012	2011
Net cash provided by operating activities	\$ 896	\$ 22,154
Net cash used in investing activities	(4,293)	(2,844)
Net cash used in financing activities	(3,906)	(3,235)
Net decrease in cash and cash equivalents	<u>\$ (7,303)</u>	<u>\$ 16,075</u>

During the nine months ended October 28, 2012, cash on hand and cash generated from operations of \$896,000 helped to fund capital expenditures of \$3.9 million related to our business operating systems and facilities, cash dividends of \$3.2 million, premiums on officers' life insurance of \$870,000 and repurchases of our common stock of \$671,000. Company-owned life insurance policies are in place to offset costs associated with the loss of key employees and facilitate business continuity, as well as provide funding for benefits.

In comparison, during the nine months ended October 30, 2011, cash generated from operations of \$22.2 million helped to fund an increase in cash and cash equivalents of \$16.1 million, cash dividends of \$3.2 million, capital expenditures of \$2.4 million related to our business operating systems and facilities and premiums paid on Company-owned life insurance policies of \$1.1 million.

Loan Agreement

The loan agreement for our revolving credit facility requires us to comply with customary covenants, which as of October 28, 2012 included, among other things, the following financial covenants:

- § maintain a tangible net worth-of at least \$95.0 million;
- § limit capital expenditures to no more than \$15.0 million during any fiscal year; and
- § maintain a ratio of funded debt to EBITDA not exceeding 2.0:1.0.

The loan agreement does not restrict our ability to pay cash dividends on or repurchase shares of our common stock, subject to complying with the financial covenants under the loan agreement.

During the fiscal 2013 second quarter we amended our loan agreement to reduce the minimum required tangible net worth from \$108 million to \$95 million, primarily to provide additional flexibility to purchase our common shares under the share repurchase authorization approved by our board in April 2012.

We were in compliance with our loan agreement covenants as of October 28, 2012 and expect to remain in compliance with existing covenants for the foreseeable future.

Share Repurchase Authorization

During the fiscal 2013 first quarter, our board of directors authorized the repurchase of up to \$12.5 million of the Company's common shares. The authorization does not obligate us to acquire a specific number of shares during any period and does not have an expiration date, but it may be modified, suspended or discontinued at any time at the discretion of our board of directors. Repurchases may be made from time to time in the open market, or through privately negotiated transactions or otherwise, in compliance with applicable laws, rules and regulations, and subject to our cash requirements for other purposes, compliance with the covenants under the loan agreement for our revolving credit facility and other factors we deem relevant. We have entered into a trading plan under Rule 10b-18 and Rule 10b5-1 of the Securities Exchange Act of 1934 for affecting some or all of the purchases under this repurchase authorization. The trading plan contains provisions that could restrict the amount and timing of purchases. We can terminate this plan at any time. Through the first nine months of fiscal 2013, we had used approximately \$671,000 of the authorization to purchase 57,700 of our common shares (at an average price of \$11.63 per share), with approximately \$11.8 million remaining available for future purchases under the authorization as of the end of the fiscal 2013 nine months.

## Liquidity, Financial Resources and Capital Expenditures

As of October 28, 2012, we had an aggregate \$13.2 million available under our \$15.0 million revolving credit facility to fund working capital needs. Standby letters of credit in the aggregate amount of \$1.8 million, used to collateralize certain insurance arrangements and for imported product purchases, were outstanding under our revolving credit facility as of October 28, 2012. There were no additional borrowings outstanding under the revolving credit facility on October 28, 2012. Any principal outstanding under the credit facility is due July 31, 2013.

We believe that we have the financial resources needed to meet our business requirements for the foreseeable future, including capital expenditures and working capital, as well as for share repurchases and regular quarterly dividends. Our primary sources of liquidity include cash flow from operations, our \$15.0 million revolving credit facility, the accounts receivable factoring arrangement for our domestic upholstery operation and the ability to borrow against the cash surrender value of Company-owned life insurance policies. Cash flow from operations is highly dependent on incoming order rates and our operating performance. We expect to spend between \$1.0 million to \$2.0 million in capital expenditures during the remainder of fiscal year 2013 to maintain and enhance our operating systems and facilities. Of this estimated amount, we expect to spend between \$500,000 to \$1.0 million on the implementation of our ERP system.

We have \$11.8 million remaining on our share repurchase authorization. We expect to fund share repurchases using available cash and cash generated from operations. Repurchased shares will become authorized but unissued common shares. Additional share repurchases will depend on the factors and limitations discussed under “Share Repurchase Authorization” above.

### **Critical Accounting Policies**

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” included in our annual report on Form 10-K for the fiscal year ended January 29, 2012.

### **Forward-Looking Statements**

Certain statements made in this report, including under Part 1, Item 2 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and in the notes to the condensed consolidated financial statements included in this report, are not based on historical facts, but are forward-looking statements. These statements reflect our reasonable judgment with respect to future events and typically can be identified by the use of forward-looking terminology such as “believes,” “expects,” “projects,” “intends,” “plans,” “may,” “will,” “should,” “would,” “could” or “anticipates,” or the negative thereof, or other variations thereon, or comparable terminology, or by discussions of strategy. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Those risks and uncertainties include but are not limited to:

- § general economic or business conditions, both domestically and internationally, and instability in the financial and credit markets, including their potential impact on our (i) sales and operating costs and access to financing or (ii) customers and suppliers and their ability to obtain financing or generate the cash necessary to conduct their respective businesses;
- § supply, transportation and distribution disruptions, particularly those affecting imported products, including the availability of shipping containers and cargo ships;
- § disruptions involving our vendors or the transportation and handling industries, particularly those affecting imported products, including customs issues, labor stoppages, strikes or slowdowns and the availability of shipping containers and cargo ships;

- § price competition in the furniture industry;
- § changes in domestic and international monetary policies and fluctuations in foreign currency exchange rates affecting the price of our imported products and raw materials;
- § the cyclical nature of the furniture industry, which is particularly sensitive to changes in consumer confidence, the amount of consumers' income available for discretionary purchases, and the availability and terms of consumer credit;
- § risks associated with the cost of imported goods, including fluctuation in the prices of purchased finished goods and transportation and warehousing costs;
- § adverse political acts or developments in, or affecting, the international markets from which we import products, including duties or tariffs imposed on those products;
- § risks associated with domestic manufacturing operations, including fluctuations in capacity utilization and the prices and availability of key raw materials, as well as changes in transportation, warehousing and domestic labor costs and environmental compliance and remediation costs;
- § our ability to successfully implement our business plan to increase sales and improve financial performance;
- § the direct and indirect costs associated with the implementation of our Enterprise Resource Planning system, including costs resulting from unanticipated disruptions to our business;
- § risks associated with distribution through third-party retailers, such as non-binding dealership arrangements;
- § capital requirements and costs;
- § competition from non-traditional outlets, such as catalog and internet retailers and home improvement centers;
- § changes in consumer preferences, including increased demand for lower-quality, lower-priced furniture due to declines in consumer confidence and/or discretionary income available for furniture purchases and the availability of consumer credit;
- § higher than expected costs associated with product quality and safety, including regulatory compliance costs related to the sale of consumer products and costs related to defective or non-compliant products; and
- § achieving and managing growth and change, and the risks associated with acquisitions, restructurings, strategic alliances and international operations.

Any forward looking statement that we make speaks only as of the date of that statement, and we undertake no obligation, except as required by law, to update any forward-looking statements whether as a result of new information, future events, or otherwise.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are exposed to market risk from changes in foreign currency exchange rates, which could impact our results of operations or financial condition. We manage our exposure to this risk through our normal operating activities.

For imported products, we generally negotiate firm pricing denominated in U.S. Dollars with our foreign suppliers, typically for periods of at least six months. We accept the exposure to exchange rate movements beyond these negotiated periods. We do not use derivative financial instruments to manage this risk, but could choose to do so in the future. Most of our imports are purchased from suppliers located in China. The Chinese currency floats within a limited range in relation to the U.S. Dollar, resulting in exposure to foreign currency exchange rate fluctuations.

Since we transact our imported product purchases in U.S. Dollars, a relative decline in the value of the U.S. Dollar could increase the price we pay for imported products beyond the negotiated periods. We generally expect to reflect substantially all of the effect of any price increases from suppliers in the prices we charge for imported products. However, these changes could adversely impact sales volume or profit margins during affected periods.

Amounts outstanding under our revolving credit facility would bear interest at variable rates. In the past, we have entered into swap agreements to hedge against the potential impact of increases in interest rates on our floating-rate debt instruments. There was no outstanding balance under our revolving credit facility as of October 28, 2012, other than standby letters of credit in the amount of \$1.8 million. Therefore, a fluctuation in market interest rates of one percentage point (or 100 basis points) would not have a material impact on our results of operations or financial condition.

### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended October 28, 2012. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the Company's management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

#### **Changes in Internal Control over Financial Reporting**

As discussed above, early in the fiscal 2013 third quarter we implemented a new Enterprise Resource Planning (ERP) system in our casegoods segment and the imported upholstery unit of our upholstery segment. This implementation did not result in material changes to our internal controls over financial reporting. However, where appropriate, we have modified the design and documentation of internal controls, processes and procedures relating to the new system in order to replace or supplement our existing set of internal controls over financial reporting. These system changes were not undertaken in response to any actual or perceived deficiencies in our internal control over financial reporting.

There were no other changes in our internal control over financial reporting during the fiscal quarter ended October 28, 2012, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

## Purchase of Equity Securities by the Issuer and Affiliated Purchasers

	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased As Part of Publicly Announced Program</u>	<u>Maximum Dollar Value of Shares That May Yet Be Purchased Under The Program</u>
July 30, 2012 - September 2, 2012	30,000	\$ 11.64	30,000	\$ 11,890,457
September 3, 2012 - September 30, 2012	5,300	11.62	35,300	11,828,888
October 1, 2012 - October 28, 2012	-	-	-	11,828,888
<b>Total</b>	<u>35,300</u>	<u>\$ 11.63</u>	<u>35,300</u>	

During the fiscal 2013 first quarter, our Board of Directors authorized the repurchase of up to \$12.5 million of the Company's common shares. For additional information regarding this repurchase authorization, see "Share Repurchase Authorization" in Management's Discussion and Analysis of Financial Condition and Results of Operations.

**Form 10-Q for the Quarterly Period Ended October 28, 2012**  
**SECTION 13a-14(a) CERTIFICATION**

I, Paul B. Toms, Jr., certify that:

1. I have reviewed this quarterly report on Form 10-Q of Hooker Furniture Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
