Hooker Furniture Reports Strong Operating Profitability Performance for First Quarter

MARTINSVILLE, Va., June 4, 2015 (GLOBE NEWSWIRE) -- Hooker Furniture (Nasdaq:HOFT) today reported consolidated net sales of \$61 million and net income of \$3.5 million, or \$0.32 per diluted share, for its 13 week fiscal quarter ended May 3, 2015.

Net income increased 23.8%, or \$668,000 on essentially flat sales.

Earnings per share increased to \$0.32 per share compared to \$0.26 in the prior year quarter.

Consolidated operating income increased nearly \$1 million, or 23.6%, over the prior year quarter, driven by upholstery segment improvements. The upholstery segment, including Sam Moore, Bradington-Young and Hooker Upholstery, improved operating profitability by \$916,000 year-over-year on the strength of cost reductions and increased manufacturing efficiencies.

"We're pleased with our ability to deliver a solid quarter and grow profits more than 20% in spite of flat demand and inconsistent retail conditions around the country during the period," said Paul B. Toms Jr., chairman and chief executive officer. "The significant operating income improvement in our domestic upholstery operations, especially at Sam Moore, was a highlight of the quarter," he said.

"In addition, we're gratified the casegoods segment built on last year's performance by again generating an operating profit margin of over 10% this quarter, and we believe we can continue to make incremental improvements as we move forward." The solid casegoods margins were driven by lower discounting and quality-related costs, he added.

On the sales side, Toms affirmed that "Revenues were somewhat deflated in the quarter due to late deliveries of several key October 2014 Furniture Market casegoods introductions. These product collections are being delivered to retail stores presently, with the shipments recorded in the early part of the second fiscal quarter," he said.

Consolidated gross profit increased 4.9%, or \$765,000, over the prior year quarter primarily due to upholstery segment gross profit improvement.

At the end of the quarter, Sam Moore's Bedford, Va. operations went live on the conversion of its Enterprise Resource Planning System to a new platform. "The system conversion we have been working toward for over two years was implemented the first weekend of May, and the transition has generally gone very well," Toms said.

The Company's new business ventures, H Contract and Homeware, "each had double-digit year-over-year net sales growth in the quarter, including a nearly 60% growth rate at H Contract," Toms said.

Cash, Debt and Inventory

"Product availability continues to improve, with the initially-delayed October 2014 introductions now flowing to retail," said Toms. "Our vendors' deliveries are getting back on schedule. We expect inventories to grow over the summer, so we will have the right mix of best-selling products to support the expected increase in demand as we move toward the fall selling season."

The Company finished the quarter with \$40.5 million in cash and cash equivalents and no long-term debt. Additionally, \$13.5 million was available on its \$15.0 million revolving credit facility, net of \$1.5 million reserved for standby letters of credit. Consolidated inventories stood at \$44.0 million, down \$1 million from the fiscal 2015 year end.

Dividends

At its June 4, 2015 meeting, the Company's board of directors declared a quarterly cash dividend of \$0.10 per share, payable on June 30, 2015 to shareholders of record at June 15, 2015.

Business Outlook

"While we are encouraged by strong Memorial Day sales reports from dealers, inconsistent and sluggish conditions on a day-inand-day-out basis at retail have caused demand to be relatively flat throughout the first quarter and during the first four weeks of the current quarter. In addition, key economic indicators such as consumer confidence have been inconsistent, while most key housing indicators such as new home sales, new housing starts, existing home sales and household formations appear improved year-over year. Our outlook for the second quarter is a demand environment that is similar to the first quarter, with the late deliveries that we experienced in the first quarter to be less of an issue. Longer term, we remain optimistic both with our core business and our new ventures. We continue to increase manufacturing efficiency at our upholstery manufacturing facilities, maintain good inventory positions on best sellers and to implement marketing and merchandising strategies to boost sales. All this puts us in a strong position to capitalize on continued improvements in the economy and retail as they occur," Toms concluded.
