

HOOKER[®] FURNISHINGS

Our *Policy*

At Hooker Furnishings, we see ourselves as stewards of a sustainable future.

We are committed to upholding our environmental responsibilities and placing ourselves at the forefront of change, striving to create and maintain a company culture that always chooses to mitigate environmentally significant impacts. As an organization, we pledge our ongoing due diligence in identifying and implementing sustainable best practices, seeking out environmentally friendly resources that do not sacrifice the quality and style that our brands have come to be known for.

While we actively audit our carbon footprint with continuous reduction in mind, we acknowledge that there is still much to be done.

We regularly evaluate our projects, opportunities, and priorities to ensure that we are devoting adequate time and resources to maximize the overall environmental impact that we can have in our communities as leaders in long term sustainability.
